

# Homework students **actually** start.

Organizing and starting are the hard part. The app does both.

## Everything in one place

School and activity calendars sync. Que reads worksheets.

## One thing at a time

Start now picks the next assignment, with about how long it takes.

## A reason to start

A buddy works alongside, and starting builds a world they picked.

WORKS WITH **Canvas** | **Google Classroom** | **Schoology** | **Google Calendar** | **TeamSnap** | and more

Student data never sold

No school password

Parent check-in, daily email and weekly printout

### Kacey Oppelt, **founder**

Electrical engineer, MBA and 24 years in engineering, business development and strategic planning at major aerospace and defense companies. She built qivo quest for her own student.

Product names are trademarks of their owners. They aren't affiliated with or endorsing qivo quest, which only reads their calendar links.

**Bring qivo to your students.**

For schools, tutors and programs. Families: 14 days free.
